

Fabulous Small Island Home Perched Amongst Virgin Gorda's Boulders Villa  
Rocks and Roll  
1 Bed House For Sale in Virgin Gorda

Description

The aptly named "Villa Rocks and Roll" is perfectly perched amongst Virgin Gorda's famous granite boulders...and just above one of the islands most hidden gems of a sandy beach at Crooks Bay. A beach can't be officially private in the BVI but for all practical purposes this one is just about as private as you can get! This delightful home is close enough to easily stroll to the beach but elevated to provide expansive beach, ocean and island views and to catch the cooling tradewind breezes. The driveway to 'Villa Rocks and Roll' wraps around an enormous boulder as it leads you to the home. There's plenty of parking behind the house and a garage...a rare find in Virgin Gorda. Very well engineered, constructed and finished, the Villa was designed...
