Lot Size: 1.97 Acres | 7,922,387 Square Meters | 0.79 Hectares

Description

This beautiful homesite is just under two acres and rests upon the rocky southern bluffs of Oil Nut Bay. The gentle sea breezes, expansive views and incredible whale watching make it an ideal location to build a 4-6 bedroom villa. While the location offers the utmost privacy, the natural low foliage also provides unparalleled views of the Caribbean Sea and incredible sunsets along the southern coastline of Virgin Gorda. To complement your individual lifestyle, each site allows for residents to design and build their custom villa in harmony with nature. This site can accommodate a villa up to 6,000 square feet and is best situated facing southeast to capture in full the cooling trade winds. Boulder Villa 3 is located close to the resort center...
