7 Bed Property For Sale in St. Lawrence

Description

Set back from the road and approached through electric gates onto a paved private driveway, this substantial detached new build occupies elevated ground with far-reaching views across neighbouring fields. Classically styled as a contemporary interpretation of a Cod House, the architecture balances traditional proportions with modern execution, creating a sense of volume and openness that an original home of this type could not achieve. An abundance of natural light flows throughout, further enhanced by a carefully considered palette of neutral, light-toned materials that accentuate the feeling of space. Extending to over 5,000 sq ft and completed in 2025, the property demonstrates a clear emphasis on quality, comfort and refined detailing...
