 12 Bed House For Sale in St. Georges**

**Description**

Exciting Investment Opportunity! Over 7 acres, predominately zoned Res 1 with approximately 1700 feet of boat able waterfront. Currently the property has 13 ARVs. Most apartments have been updated (with others in process) and overall these show a healthy rate of return. Originally built by multi-millionaire and American spy, Vincent Astor and his wife Helen in 1933. The observation deck, aquarium, cinema, old train tracks and enormous pool remains a testament to a bygone era and lifestyle. Below the mansion are multiple storage and mechanical rooms serviced by wide service...
